SINCE 1983

YEARS OF R&D TO UNDERSTAND, DESIGN AND PRODUCE AS PER CUSTOMER PREFERENCES
BPE Innovations Private Limited is a leading and one of the oldest company manufacturing automation products in India since 1983. We specialize in Sensor based automation products for Industries and Washroom Hygiene. Our foremost concerns have always been on quality and superior customer service. Having a technical background clubbed with experience & expertise in our field enable us to score an edge over others in the industry.

We are especially designing and manufacturing tougher products that last long and are easier to repair unlike use & throw imported ones which are marketed extensively in India by big brands. We are committed to serve our country with easily repairable lifetime product with no need to replace entire system in life.

We also manufacture custom sensor based products according to the customer requirements.

We are known in the industry by two ways :-

› Our BRAND BHARAT PHOTON has already created a niche in the industry with our premium range of washroom hygiene sensors and accessories.
› Our Automatic Urinal Flushers and Automatic Sensor Faucets are already serving Indian washrooms under the umbrella of elite sanitary brands for which we act as an OEM partner in sensor products since decades.
